

## 2023 Sunday Spring Series

From whatever angle one views our age, Colossians is up to date. Although written nearly 2,000 years ago, its timeless message speaks to the dilemmas facing us today. It helps us with how to relate to God, members of our families, our church and those around us. The issues deal with the way of wisdom from our speech, to the problems and crises of our age. With all these problems, it presents Jesus Christ as the answer. Colossians gives us Jesus' true identity. Far from being just another religious leader, He is "the image of the invisible God, the first-born of all creation" (1:15); the One in whom "all the fullness of Deity dwells in bodily form" (2:9). As God in human flesh, Jesus' word is authoritatively, absolutely, and exclusively true.
